Emacs + непечатные слова

```
var TalkWidget = React.createClass({
  render: function() {
    var c = this.props.talk;

    var photo = c.speaker.photo || "https://pbs.t

    return (
      <View style={styles.container}>
        <Image source={{uri:photo}} style={st
        <View style={styles.right}>
          <Text style={styles.title}>{c.tit
          <Text style={styles.subtitle}>{c
        </View>
      </View>

    );
  }
});
```
